

From: Julien Landel, [Lyon 1 University](#), France, 19/12/2024

Subject: [Excellence Scholarships](#) for Masters studies in Mechanical Engineering

Deadline for applications: 31st January 2025

Details: At least 4 scholarships worth 10,000€ (stipend) + university fees to do a 1-year Masters degree are available from the Graduate Initiative "Energy and Industry of the Future" ([GI EIF](#)) of the Department of Mechanics, at Lyon 1 University, France. Funding for PhD scholarships will be available for the top 20% of the students in the programme. The applicants must choose 1 of the 2 Masters degree programmes between [Modelling and Applications in Mechanics](#), and [Fluid Mechanics and Energy](#), and 1 of the four topics for their 6-month research project: [Efficient Design of Metamaterials](#), [Experimental Multiphase Flows](#), [Stability in Non-Newtonian Convective Flows](#), and [Force Transmission in Cartilage Microstructure](#). Contact the specific project supervisor for more details.

Eligibility: applicants should hold or be about to receive (by August 2025) a Masters degree in a related Engineering field, should be of non-French nationality (dual citizenship allowed) and should be based outside France.
